dependable solutions

## Task 2.1

---

**Development and maintenance of Web pages to advertise NORS.**

## SOW

The NORS Webpages will have a public and a private section. The **private section** will be used to exchange information between partners, to exchange project meeting minutes, intermediate results and documents, etc.

The **public section** will be used to advertise NORS and to highlight NORS achievements.

The NORS Webpages will also make **links** to the NORS data products and validation server.

## Up and running :

***nors.aeronomie.be***

***nors-server.aeronomie.be***

***NORS is linked to MACC and NDACC Webpages***

## Task 2.2

---

**dissemination of overall project results in  
scientific meetings, workshops, open  
literature,...**

- Already  $\geq 12$  **peer-reviewed** publications published (some missing ?); Several more submitted or in progress – cf . Workshop presentations
- Multiple ( $\geq 50$ ) oral and poster **presentations** at national and international scientific symposia like EGU, AGU, MACC Open Science Conference, MACC/PURE Users Workshops, IGAC, GRUAN meetings, ESA and EUMETSAT conferences, ....
- Outreach to GRUAN, NDACC, CEOS, GAW, ....

see WP10

- Outreach to **policy makers**:
  - ✓ Flyer
  - ✓ Brochure
  - ✓ White Paper
  - ✓ 3 Publications in Pan European Networks: Science & Technology, and in the Parliament Magazine
  - ✓ E-book in Adjacent Government Company
  - ✓ Article in Eye on Space, *Space Research - EU 7th Framework Programme for Research (4th call) brochure*
  - ✓ Presentation about NDACC & NORS at 9<sup>th</sup> O3 Research Managers in Geneva in May 2014
- ❖ *Belgian Secretary of State and president of Belgian Science Policy....a misser because of the current political situation !*

## Task 2.3

---

### Final NORS workshop.

## SOW

“The aim of the workshop is to show NORS achievements to a wider audience, including NDACC members who are not belonging to the NORS consortium, including MACC partners, satellite teams, other GAS or GMES actors (to be identified), some European policy makers, and the local press. We aim at an attendance of around 50 to 75 people. The workshop will be held in Brussels - logistics will be defined during the last year of the project.”

## **BIG SUCCESS!**

- 111 registered participants (a few only part-time) among which
  - 31 members of the NDACC Steering Committee & 1 member of CEOS
  - plus 2 ESA representatives and EU representatives and a WMO representative
- 46 oral presentations
- 7 posters

Among the presentations, 20 are directly resulting from NORS

*A report about the final workshop will be published in the NDACC Newsletter and as a NORS deliverable*
